

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
REGION II
EDISON, NEW JERSEY 08837

January 29, 1991

David & Phyllis Ryckman
7 Carpathia Street
Piscataway, New Jersey 08854

Dear Resident:

On February 6, 1991, the United States Environmental Protection Agency (EPA) will be sampling residential wells in the Nova Ukraine area of Piscataway for the presence of volatile organic compounds (VOC's). Validated laboratory results will be distributed to participants in approximately six weeks. There are no costs to the homeowners for the sampling or the analyses.

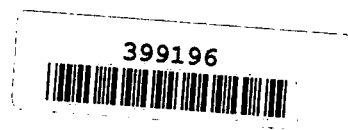

Please contact me at 321-6694 if you are interested in arranging for your well to be sampled. Any information that you may have on the construction of your well would be helpful.

Due to the presence of VOC's detected in the wells of the Nova Ukraine area, the EPA strongly recommends that you make connection to the public water system as soon as possible.

Sincerely,

A handwritten signature in cursive script, appearing to read "Michael Neill", is written over the typed name.
